

## Expert help for homeless

HOMELESS people and those at risk of homelessness are urged to attend a free event where more than 40 service providers will give free help and advice.

Held during Homeless Person's Week, the Helping Community Connect Event has been organised by the Homeless Community Connect Taskforce, established by Victoria Park MLA Ben Wyatt, Riverview Community Services and Communicare.

"Service providers will come together to give you access, in one location, to essential support services at no cost," said Communicare spokeswoman Brenda Chew.

"Are you struggling to pay your rent? Do you want to speak to Centrelink without

waiting? Are you in need of free medical or dental services? Is it difficult to afford day to day expenses?"

Services at the event will include Centrelink, housing advisers, Transperth, financial planners, doctors, dentists and children's activities.
